SCHOOL PROFILE

COLLEGE CREDITS

Camden County College (CCC) provides high school juniors and seniors at CCTS with various opportunities to earn college credit for college-level work completed while in high school.

Students may bank the credits earned for future enrollment at CCC or transfer them to other colleges and universities. Students may earn college credits via various Youth Apprenticeship programs, by participating in select Advance Placement academic classes and after-school enrichment classes and for units of study within certain career programs and academies at CCTS via our Articulation agreements. These dual-credit programs not only accelerate student achievement—they save time and money. Diverse academic offerings include foreign languages, English, Psychology, Science, Technology, Engineering, and Mathematics. High school seniors who qualify attend CCC full-time through the Senior Option program.
